Fits: 4oz Pet Jar

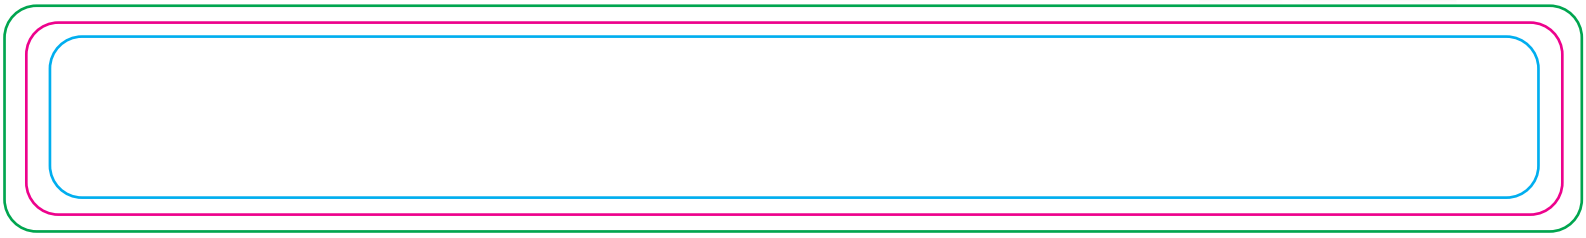

NOTE FOR DESIGNERS: This template is scaled at 100% and represents a possible label shape and size for this item. We highly recommend printing your artwork at full scale, cutting it out, and confirming the visual design before submitting your file for print. This will give you a clear visual of font size, colours, and overall visibility.

The bleed line allows background artwork to extend beyond the trim line, ensuring a clean edge once the label is cut. The trim line indicates where the label will be cut and represents the maximum recommended label size. All critical text and design elements should remain within the design clearance line.

Label Size: 8 in x 1 in

***Check with designer to ensure this is the right size for your product.**

Bleed Line: Extend colour to this line to ensure no white lines

Trim Line: Keep all information away from this line

Design Clearance line: Keep all information inside this line

Remember:

Print on an 8.5 × 11 sheet (standard printer paper) to preview how it will look. The label is set to actual size on the sheet to give you a better visual of the sizing. Please be sure to do this before sending the file to the designer.
