SAFETY DATA SHEET (SDS)

Revised: November 3, 2026

1. PRODUCT AND COMPANY IDENTIFICATION

Product name	Clary Sage Essential Oil
Botanical name	Salvia sclarea L.
INCI name	Salvia Sclarea Oil
CAS #	84775-83-7
Country of Origin	France/Hungary
EINECS #	283-911-8
Product use	Domestic and Industrial
Supplier / Distributor	Cosmetic Labs Canada
Address	298 Wellington St W, Sault Ste. Marie, Ontario P6A 1H7
Website	www.cosmeticlabscanada.com
Emergency	CANUTEC (613) 996-6666 (24 hours)
After-hours support	705-910-6300

2. HAZARDS IDENTIFICATION

Emergency Overview

GHS Classification

Causes skin irritation - Skin Irrit. 2

Causes serious eye irritation - Eye Irrit. 2

May cause an allergic skin reaction - Skin Sens. 1

Harmful to aquatic life with long-lasting effects - Aquatic Chronic 3

GHS Label elements, including precautionary statements

Signal: Warning

Hazard statement(s)

H315 Causes skin irritation

H319 Causes serious eye irritation

H317 May cause an allergic skin reaction.

H412 Harmful to aquatic life with long-lasting effects

Precautionary statement(s)

P101 If medical advice is needed, have product container or label at hand.

P102 Keep out of reach of children.

P103 Read label before use.

P261 Avoid breathing dust/fumes/gas/mist/vapours/spray.

P273 Avoid release to the environment.

P280 Wear protective gloves/protective clothing/eye protection/face protection.

P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy to do; continue rinsing.

P501 Dispose of contents/container according to local regulations.

P321 Specific treatment (see label).

3. COMPOSITION / INFORMATION INGREDIENTS

Product name	CAS No.	EC No.	Concentration
Linalyl acetate	115-95-7	204-116-4	≥56.0%
Linalool	78-70-6	201-134-4	≤24.0%
alpha-Terpineol	98-55-5	202-680-6	≤5.0%
Geraniol	106-24-1	203-377-1	≤4.0%
d-limonene	5989-27-5	227-813-5	≤2.0%
Sclareol	515-03-7	208-194-0	≤2.6%

4. FIRST AID MEASURES

Eye contact

Immediately flush eyes with plenty of cool water for at least 15 minutes. Get medical attention if irritation occurs.

Skin contact

Remove contaminated clothing. Wash area with soap and water. If irritation occurs, get medical attention.

Inhalation

If inhaled, removed to fresh air. Get medical attention if symptoms appear.

Ingestion

Rinse mouth with water (only if the person is conscious). Do not induce vomiting. Seek medical attention or contact local poison control center.

5. FIRE FIGHTING MEASURES

Suitable extinguishing media

CO2 and/or extinguishing powder

Unsuitable extinguishing media

Water jet.

Special protective equipment and precautions for fire-fighters

Cool closed containers that are not on fire and not burning with a water jet. Do NOT extinguish burning oil with water! Extinguishing water must not be discharged into drains, soil or living water.

Fireman must wear self-contained breathing apparatus.

Wear fully protective suit.

Special hazards arising from the substance or its combustible products

Carbon oxides is produced when burning.

Resulting gases

Carbon oxides.

6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures.

Equip clean crew with proper protection. Respiratory protection equipment may be necessary.

Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if product enters sewers or public waters.

Methods and materials for containment and cleaning up

Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust).

Dispose contaminated material as waste according to section 13.

Ensure adequate ventilation.

7. HANDLING AND STORAGE

Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Open and handle receptacle with care.

Prevent formation of aerosols.

Smoking, eating and drinking should be prohibited in application area.

Avoid contact with skin and eyes.

For personal protection see Section 8.

Handle in accordance with good industrial hygiene and safety practice.

· Information about fire - and explosion protection: Product is not flammable

Conditions for safe storage, including any incompatibilities

Conditions for safe storage, including any incompatibilities

Quality of product may change to touch with air/oxygen, so after opening recommended to use protective gas.

Keep container tightly sealed.

Store separated from foodstuff or animal food and oxidizing agents.

Protect from heat and direct sunlight.

Store in a cool and dry place, keep container tightly closed.

· Storage:

· Requirements to be met by storerooms and receptacles:

Store in a cool and well-ventilated palace.

Keep container tightly closed, protected from light and potential sources of ignition.

Store separated from foodstuff or animal food.

Recommended storage condition 18-25 Celsius.

· Information about storage in one common storage facility:

Store separated from foodstuff or animal food.

Store in a cool and dry place, keep container tightly closed.

· Further information about storage conditions:

Keep container tightly sealed.

Protect from heat and direct sunlight.

Store receptacle in a well ventilate

8. EXPOSURE CONTROLS AND PERSONAL PROTECTION

Eyes

Safety glasses with side protection shield EN166.

Skin

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Chemical resistant gloves according to EN 374.

· Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the

resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· As protection from splashes gloves made of the following materials are suitable: Latex gloves

Respiratory

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

9. PHYSICAL AND CHEMICAL PROPERTIES

10. STABILITY AND REACTIVITY

Reactivity

This material presents no significant reactivity hazard.

Chemical stability

Chemically stable.

Possibility of hazardous reactions

Hazardous polymerization will not occur.

Conditions to avoid

Avoid sparks, flame and other heat sources.

Incompatible materials

Strong oxidizing agents.

Hazardous decomposition products

Carbon Oxides.

11. TOXICOLOGICAL INFORMATION

Acute toxicity

Based on available data, the classification criteria are not met.

Carcinogenicity

Based on available data, the classification criteria are not met

Chronic toxicity

May cause allergic reactions on skin.

Mutagenicity

Based on available data, the classification criteria are not met

Specific target organ toxicity

Shall not be classified as a specific target organ toxicant.

Reproductive toxicity

Based on available data, the classification criteria are not met

Respiratory or skin sensitization

May cause an allergic skin reaction

Inhalation

Inhalation of high concentrations of vapor may result in irritation of eyes, nose and throat, headache, nausea, and dizziness.

Skin contact

Adverse skin effects should be prevented by normal care and personal hygiene.

Eye contact

Possible irritation should be prevented by wearing safety glasses.

Ingestion

Low order toxicity causing irritation of the stomach and intestines which results in nausea and vomiting

Skin corrosion

Causes skin irritation

Serious eye damage

Causes serious eye irritation.

Single exposure

Based on available data, the classification criteria are not met

Repeated exposure

Based on available data, the classification criteria are not met

Aspiration hazard

Based on available data, the classification criteria are not met

12. ECOLOGICAL INFORMATION

Ecotoxicity

Harmful to aquatic life with long lasting effects. - Hazard category 3.

Persistence and degradability

biodegradable

Bio - accumulative potential

Not available

Mobility in soil

Not available.

Other adverse effects

Do not allow the materiel to enter streams, sewers or other waterways. In case of spill do not release to drains or soil. Keep away from surface and ground water. Do not flush into surface water or sanitary sewer system.

13. DISPOSAL CONSIDERATION

Must not be disposed together with household garbage. Do not allow product to reach sewage system.

Waste disposal by ignition in accordance with international, national and local regulations.

Packaging, waste product and materials used for absorbing spills shoukd be disposed of inthe same manner as the substance.

Do not contaminate the ground or water with waste. Do not dispose of waste into the environment.

Disposal must be made according to official regulations.

14. TRANSPORT INFORMATION

US DOT Shipping Description (Land)

Not regulated.

IMO-IMDG Shipping Description (Sea)

Not regulated.

IATA Shipping Description (Air)

Not regulated.

Emergency action in case of accident

Notify police and fire department immediately

15. REGULATORY INFORMATION

California Proposition 65

• This product can expose you to beta-Myrcene, which is known to the State of California to cause cancer.

For more information go to www.P65Warnings.ca.gov.

GHS Hazard Statements

Please refer to section 2.

GHS Precautionary Statements

Please refer to section 2.

16. OTHER INFORMATION

Revision date: November 3, 2026

Disclaimer & Caution

This safety data sheet is provided by Cosmetic Labs Canada as a regulatory summary based on available product safety information. The information is intended to support safe handling, storage, transport and use, and has not been independently tested or verified by Cosmetic Labs Canada. Users must assess its suitability for their circumstances and comply with applicable laws and regulations. This document does not replace a product-specific hazard classification review.
