12	Products not intended for direct skin contact, minimal or insignificant transfer to skin	100%

PLEASE NOTE: For use in other applications or use at higher concentration levels, a new safety evaluation may be required.

The IFRA Standards regarding use restrictions are based on safety assessments by the Panel of Experts of the Research Institute for Fragrance Materials (RIFM) and are enforced by the IFRA Scientific Committee.

Evaluation of individual fragrance ingredients is made according to the safety standards contained in the relevant section of the IFRA Code of Practice. It is the responsibility of the customer to ensure the safety of the finished product through appropriate testing where required.
