

Fits: Frosted 4oz Jar

**Note: Some space at the top may remain. \*File is open to size**

**NOTE FOR DESIGNERS:** This template is scaled at 100% and represents a possible box shape and size for this item. We highly recommend printing your artwork at full scale, assembling the box, and confirming proper fit and design before submitting your file for print. This will help you evaluate font size, colours, panel layout, and overall visibility.

The bleed line allows background artwork to extend beyond the trim line, ensuring clean edges once the box is cut and assembled. The trim line indicates where the box will be cut and represents the maximum recommended size. All critical text, logos, and design elements should remain within the design clearance area.
